A Probiotic and FOS Supplement to Support Digestive Tract Health*

Did You Know...

For every 1 human gene in your body, you have nearly 10 bacterial genes. Bacteria play an enormous role in many of your body's functions. Beneficial bacteria, also known as probiotics, support the health of your body's digestive tract, and play a critical role in supporting healthy digestion, regularity and immune support function.*

HealthSource Probiotics can help to support the following:

- Gastrointestinal support*
- Neurological support*
- Immune Support*

The HealthSource Difference

HealthSource Probiotics contain 20 billion microorganisms per capsule with 11 different strains plus the Prebiotic FOS.

FEATURES

- 20 Billion CFU per capsule
- 11 clinically tested and selected strains of probiotics, plus prebiotics*
- Acid resistant capsule
- Shelf-stable – does not require refrigeration (until opened)

BENEFITS

- The high potency of this formula provides improved digestive, immune and systemic support*
- Provides broad spectrum support*
- Patented capsule and delivery provides better delivery and absorption versus competitor products*
- Shelf stable to help maintain potency (until opened)*
